Product Integration and Support

Fortinet Products

This version of FortiGate Connector for HP VAN SDN is compatible with the following firmware:

- FortiOS 5.2
- FortiOS 5.4

HP VAN SDN Environment

This version of FortiGate Connector for HP VAN SDN is supported by the following HP VAN SDN and HP switch environments:

- HP VAN SDN Controller Version: 2.6.8
- HP Switch Version: X.16.01.0004
- HP Switch Models supporting prevention action:
 - All switches of OpenFlow capability.
- HP Switch Models supporting remediation action:
 - 2900 series
 - 3800 series.
- Some models of HP switches have limitation of remediation action. Please see the Limitation section below.

Known Issues

The following issues have been identified in version 1.1. For inquiries about a particular bug or to report a bug, please contact Customer Service & Support.

Bug ID	Description
0370180	HP 5900 series switch's host discovery function behaves as unexpected at some condition (This issue is tracked by HP.)

Limitations

- Only one user login can be configured in FortiGate Connector for HP VAN SDN.
- This version of FortiGate Connector for HP VAN SDN supports only one SDN domain.
- On some HP switches, such as 5400 and 3500YL, OpenFlow instances with multiple VLANs are not supported.
